

PUR PROFILE WRAPPING

PUR6632

Application: 100% single-component moisture-cured polyurethane hot melts, designed for wrapping wood, metal, plastic profiles with PVC, CPL, veneer, decor paper, etc.

Characteristics: Processing from moisture-proof sealed drums, our Reactive Polyurethane (PUR) offers good initial and ultimate adhesion with moderate open time, makes it suitable for different environments.

Specification:

Polymer basis	Polyurethane
Viscosity at 130°C (mPa s)	30,000 - 40,000
Supply form	yellowish opaque in solid form
Application temperature	110 - 140°C
Equipment	slot nozzles & roller applicators

Packaging: 20 kg net weight, in steel drum

Storage: 12 months, in original package, cool and dry (15-35°C).

Remarks: All data indicated are characteristics represented as average values. Our technical data sheets are revised to represent the latest information. This edition is valid on the date of compilation.
